

**REMARKS**

Applicant wishes to thank the Examiner for the careful consideration give to this application. The Examiner has restricted claims in the case into two distinct groups designated as: (i) Group I, claims 1-40 and 44-60 drawn to a system and a method for managing one or more data transfer applications for transferring data; and (ii) Group II, claims 41-43 drawn to a method for uploading or registering an application on a mobile device.

Applicants have elected, without prejudice, the invention of Group I drawn to claims 1-40 and 44-60. By this election, Applicants do not admit, nor do Applicants waive the right to argue against at a later date, the Examiner's statement that the groups of inventions are patentably distinct. Applicants expressly reserve the right to present the claims of Group II, or other claims, in one or more divisional, continuation, or continuation-in-part applications at a later date.

In view of the above election and remarks, Applicants believe that the application is in condition for examination and allowance on the merits. Favorable resolution is respectfully requested.
